

## How to display club names on statistics pages (Competition sites)

On competition sites, a player's club may be displayed next to his name when viewing statistics.

Add abbreviations for the club names in the League Members list.

If the abbreviation is missing at League Member level, one can be added at this point but it will be for the team only.

In summary, if the team names are missing from the statistics views, then add the abbreviations to the teams on the Team Management page but spend a few minutes updating the League Members section to save time in future.
